Aged & Disabled Waiver

1915c - Aged & Disabled Waiver

- Provides an alternative to nursing facility admission for adults and persons of all ages with a disability.
- The waiver is designed to provide services to supplement informal supports for people who would require care in a nursing facility if waiver or other supports were not available.
- Waiver services can be used to help people remain in their own home, as well as assist people living in nursing facilities return to community settings, such as their own homes, apartments, assisted living, or adult family care.

Nursing Facility Level of Care

Persons must qualify for level of care in order to be eligible for HCBS. An individual is said to have nursing facility level of care if they either have:

(1) A skilled medical need

- Any activity the individual requires assistance with that, in the absence of their primary informal support, would require a nurse. These needs include seizure interventions, unstable medical condition, intravenous medication administration, acute rehabilitative therapies, etc.

OR

(2) Impairments in performing three or more activities of daily living (ADL) as the result of a medical condition (as opposed to a mental health diagnosis or intellectual disability)

- Indiana uses an expanded list that includes more than the federally designated ADLs. Indiana's list includes items such as assistance with oxygen use, need for 24/7 supervision due to dementia, need for assistance with range of motion, and others as well as the more standard ADLs of bathing, dressing, transfer, ambulation, and eating.

 - A&D HCBS Benefit Combinations:
 - A&D Waiver + Adult Mental Health Habilitation (AMHH)
